

Meet RJ Jackson - "The Courage Giver"

RJ Jackson known as "The Courage Giver," for her courageous lifestyle and "The Come Back Queen," for her ability to overcome some of life's toughest challenges including a brain injury, lupus, a rare eye disease, and two life threatening auto accidents, has seen too many people with amazing gifts, talents, and a defined purpose, settle for less than they deserve, become a hostage to the pain of their past, and lose their way to the circumstances of life. With over three decades of life coaching, speaking, broadcasting, and most importantly, real-life, on the battle field experiences, RJ refuses to settle.

RJ is an international influencer known for her innate ability to inspire others to live courageously and to get up instead of give up. She is admired for her practical, authentic, down-to-earth, and transparent style. Her fusion of real-life stories, humor, and her conversational techniques connect with her audience at an intimate level even before she ever steps foot on the stage.

RJ is the Visionary and Founder of Motivated By RJ & Associates, a State of California Certified Facilitator, On Board Cruise Lecturer, Three Times Best Selling Author, Award Winning Speaker, and Community Volunteer. Her 20 plus years of speaking and broadcasting allows her to engage people around the globe in meaningful conversations on courage and confidence.

RJ has been honored as Phenomenal Woman of the Year, Living Legacy of the Year, and Woman of The Year. June 24 in Buffalo New York and July 9 in Moreno Valley, California has been deemed RJ Jackson Day.
